in Shubham Satyawali

As an experienced frontend web developer with more than 2.5 years of expertise, I specialize in ReactJS, Typescript, and Tailwind CSS. I'm passionate about creating innovative, user-friendly web applications. My focus is on maintaining high-quality, clean, and reusable code, while prioritizing efficient development processes. I actively seek opportunities to grow my skillset and advance my career in web development, and my strong foundation and growth mindset drive me to deliver impactful solutions.

WORK EXPERIENCE

DXC Technology (07/2023 - Present)
Professional 1 Software Engineer

- Developed responsive UIs with ReactJS & TypeScript as a proficient web developer.
- Worked with web APIs using axios, ensuring seamless data integration with the React components.
- Wrote unit-tested components using react-testing-library and jest, ensuring high code quality and reliability.
- Created reusable components that can be efficiently utilized in various other applications, improving development efficiency.
- Collaborated with backend developers to structure the correct data responses from the APIs ensuring smooth frontend-backend integration.
- Utilized MUI (Material-UI) and Kendo React components to design and implement beautiful and user-friendly interfaces.
- Effectively managed application-wide states using both Context API and ReduxJS, ensuring smooth data flow and state management.
- Consistently delivered successful projects, meeting deadlines and exceeding client expectations.
- Regularly showcased project outcomes to stakeholders, effectively communicating project progress and results.

DXC Technology (05/2021 - 06/2023)
Associate Professional Software Engineer

- Built and maintained projects using ReactJS library, TypeScript, functional components & GraphQL.
- Collaborated closely with UX and testing teams to ensure high-quality deliverables.
- Worked in an Agile Development Environment, adapting to constantly changing customer requirements.
- Effectively understood client requirements to develop complex component interactions.
- Learned best practices from experienced mentors and leads from Australia, Philippines & India.
- Our team of 15 developers and 3 testers consistently delivered exceptional results, exceeding client expectations, building trust, and hence creating new project opportunities.

EDUCATION

Amity University, Noida, Uttar Pradesh (05/2017 - 06/2021)
Bachelor of Technology , Computer Science & Engineering 7.31 CGPA

PROJECTS

Aniyo-v2
NextJS 13, shadcn UI components, Tailwind CSS, Jikan API
A portal for anime heads to find, Aniyo is a visually stunning web app offering curated lists like currently airing, top anime, and upcoming anime on the front-page, along with a search function for discovering and exploring new and favorite anime.
