SKILLS SUMMARY

- **Frontend**: ReactJS, TypeScript, NextJS 13+, JavaScript (ES6+), Redux
- **UI/ Styling Libraries**: Material UI (MUI), shadcn UI, Styled Components, Tailwind CSS, KendoReact UI
- **Add. Libraries**: Tanstack/ react-query, react-router-dom, framer-motion, Formik
- **Tools**: GIT, Github, Postman, Figma, Invision
- **Soft Skills**: Leadership, Team Player, Time Management

EXPERIENCE

- **DXC Technology**   Noida, Uttar Pradesh, India
  Analyst 1 Software Engineering (Full-time)   *July 2023 - Present*
  - Migrated legacy silverlight application on React, utilizing **ReactJS 18, TypeScript, material UI components and formik**.
  - **Optimized the application** by introducing lazy loading, memoization and API data caching with Tanstack query resulting in **20% faster page loads**.
  - Maintained **code quality** by following best practices and keeping the code test coverage over 80% by writing unit tests with **react-testing-library and jest**.
  - **Collaborated with backend team** to structure the correct data responses from the APIs ensuring smooth frontend-backend integration.
  - Effectively managed application-wide states using both **Context API** and **ReduxJS**, ensuring smooth data flow and state management.
  - Processed extensive datasets obtained through APIs, transforming the information into **structured tables and visually appealing charts** including line, pie, and area charts.
  - Introduced Tailwind-CSS for custom components **significantly reducing development time**.

- **DXC Technology**   Noida, Uttar Pradesh, India
  Associate Professional Software Engineer   *May 2021 - June 2023*
  - Developed and maintained projects using **ReactJS library, TypeScript, functional components & Graphql**.
  - **Collaborated closely with UX and testing teams** to ensure high-quality deliverables.
  - Worked in an **Agile Development Environment**, adapting to constantly changing customer requirements.
  - Learned coding best practices from experienced mentors and leads from **Australia, Philippines & India** .
  - Our team of 15 developers and 3 testers consistently delivered exceptional results, exceeding client expectations, building trust, and hence **creating new project opportunities**.

PROJECTS

- **Aniyo-v2 - Anime search engine (NextJS 13, shadcn UI components, Tailwind CSS, Jikan API)** : A portal for anime heads to find, Aniyo is a visually stunning web app offering curated lists like currently airing, top anime, and upcoming anime on the frontpage, along with a search function for discovering and exploring new and favorite anime. Most of the pages are SSR for performance and SEO with Client side components for interactivity.

- **Sntn discourses - music player Web app (NextJs 13, shadcn UI components, TailwindCSS, Amazon S3)**: (Work in Progress) A portal where we make very rare and scarce audio discourses from various renowned religious speakers available easily to everyone. The audio files are all stored on an Amazon S3 bucket

- **Portfolio Website (ReactJs 18, TypeScript, Tailwind CSS)** : A captivating SPA portfolio website showcasing my skills, experiences, and projects, offering insights into my personality, accomplishments & growth throughout my career.
